

Tech Show Query In The Tech Poll For Next Monday

Poll Consists Of Questioning;
No Ballots Or Booths
To Be Used

Open House Question In Poll;
To Ask If Students Desire It

The Tech Newsroom Available
For Students To Vote
Next Monday

"Do you want a Tech Show this year?" has been the query added to The Tech questionnaire for next Monday when representatives from the staff will poll the student body to determine whether there is support for Open House and Tech Show.

"If the school wants the show this year," declared Robert J. Moffett, '37, "it will be held". In answer to his statement The Tech will poll the Institute on November 30.

Instead of ballots and a booth in the lobby, the questionnaire will be carried to students by The Tech staff. Anyone not contacted during the day may have his opinion registered by stopping at the news room after school next Monday.

Other questions will be: "Are you in favor of Open House?, If Open House is held this year, are you willing to work for two hours on Open House day?"

Wesleyan Debaters Defeat Technology On Union Question

Wage Question Will Be Argued
By Freshmen Tonight
At Meeting

After winning its two previous debates, the Technology debating team lost to Wesleyan University last Friday evening, in a contest held in the Eastman Lecture Hall on the question: "Resolved, that this house favors industrial rather than craft unions in the industries of the United States".

Wesleyan, represented by Oliver Stone, '39, and David Tratt, '39, upheld the affirmative. Howard I. Schlansker, '38, and Harold James, '38, argued the negative. Professor A. A. Lawrence of Technology served as chairman. Judges were Rev. Finnegan, of B. C.; Mr. Priestman, of the Leland Powers School, and Mr. Muiridge, of the Hood Rubber Co. The Institute team had previously won debates against B. U. and Mt. Holyoke.

At the regular bi-monthly meeting to be held this afternoon, a freshman debate will be held on the minimum wage question. Russell T. Werby, Paul Baral, and Jack Richards will speak for the affirmative. The negative will be upheld by Robert S. Clements, Louis D. Bloom, and Divo L. Tonti.

Meeting Of A. I. E. E. To Be Held Tuesday

The Student Branch of the A. I. E. E., holds its regular monthly meeting this evening in Room 1-190. Mr. Arthur C. Ruge of the Institute staff is to address the members of the club on "Seismographic Experiments and Apparatus." Mr. Ruge has been engaged in research in this field for some time, and has developed a type of damper to reduce the susceptibility of wire brace structures to earthquakes.

A copy of the current best-seller, "An American Doctor's Odyssey" will be raffled at the meeting.

Medical Posters Ready Now For Fraternity Distribution

"Every fraternity should have a medical department poster beside its telephone at all times." This was the opinion given by Doctor George W. Morse, medical director at Technology, as fraternities started to respond to the notices sent them early this week by the Department of Hygiene requesting that they send representatives to call for these posters.

These placards are of the same type found on the Institute bulletin boards. They contain telephone numbers of staff physicians to be used in emergencies and a schedule of the hours when the clinic is available.

Boeing Announces Air Scholarships

Thesis Contest To Pick Winners
Of Aviation Awards;
Four Prizes

Of special interest to those who intend to take up aviation as a career is the announcement that the W. E. Boeing Scholarships, sponsored by W. E. Boeing for the past seven years, will be offered again during the school year 1936-1937.

Four awards, in the form of flying, technical, and semi-technical courses with a tuition of \$11,000, will be presented to the winners, who must be undergraduate students in a University, College, or Junior College in the United States or Canada.

Thesis Competition is Basis of Award

The scholarships will be awarded on the basis of a thesis competition. The papers, which must be mailed on or before March 15, 1937, may be on any aeronautical subject, technical or non-technical, the choice being up to the student. The papers will be judged by a National Committee of Award composed of prominent educators under the chairmanship of Dr. Baldwin M. Woods of the Department of Mechanical Engineering, University of California.

The selection of the winners will be determined on the basis of the following points: the completeness and soundness of the subject matter, the success of the candidate in analyzing his subject matter and drawing conclusions from it, the merit of the paper as a composition, the originality of the subject matter, and the choice of subject.

The three requirements as listed by the committee in charge of the scholarships are as follows:

1. They must be male undergraduates.

Boeing Scholarships

Dr. Boos Will Speak At Chemical Meeting

Society To Be Addressed By
Noted Toxicologist

Dr. William F. Boos, noted toxicologist, chemist, and pathologist, will speak on "Capital Cases" at today's meeting of the M. I. T. Chemical society in the Moore Room in Building Six. Dr. Boos, who has spoken here several times before, is noted for his work in chemical research, and in legal medicine. He has testified as an expert in several poison cases and is particularly remembered as having played an important part in the Costello murder case.

There will be a book raffle at the close of the meeting, open only to those present.

No Tech Friday

Because of the Thanksgiving holiday next Thursday, The Tech will not be issued on Friday, November 27. It will be issued as usual next Tuesday, Dec. 1.

Chess Club Meets For Organization; Forty Men Attend

Professor Franklin Describes
Former Chess Club And
Its Decline

Faculty Represented At Meeting

Opening the organization drive for a new chess club, a group of forty students and several faculty members met yesterday evening to hear the story of the old chess club and plans for the new one.

Professor Philip Franklin of the Mathematics department told about the old club, which faded from the Institute scene four years ago. Around 1925 this club had some fifty members, said Professor Franklin, but an over-ambitious program demanded too much time from its members, and playing regularly against the strong chess clubs of Greater Boston discouraged them, so that the membership declined until there were not enough left to carry on.

Commuters form Nucleus

Herbert Jaffe, '39, who presided at the meeting, said that there already was a nucleus for the club in the group of commuters who are regularly playing in the 5:15 Room. Organization of a club, he said, would obviate declining such invitations as the one received last year from Carnegie Tech, for a chess match by radio. Pointing out that the amount of time the game demands is entirely dependent upon how much time the individual wants to spend on it, Jaffe said that chess could become one of the most popular sports at Technology.

Future activities of the club would include intercollegiate matches, and Jaffe said that the club could engage the chess champion of Massachusetts.

Chess

New Coach Appointed For Tech Orchestra

Several Places Still Vacant;
Practice On Tuesdays

With the announcement today of its new coach, Mr. Jacques Hoffman, former conductor of the Lincoln Symphony Orchestra and for many years with the Boston Symphony Orchestra, the M. I. T. student orchestra is officially opening its season. Mr. Hoffman is one of the best known violin teachers in Boston.

Plans have been made for several serious programs to be given during the year; and a number of concerts are proposed. The orchestra is not yet complete, there being vacancies mostly in the string section. However, as well as space for violin, viola, cello, and bass viol players, there is also room for bassoon and oboe players.

The orchestra rehearses Tuesday evenings at 7 P. M. in 2-390, the Musical Clubs Room.

Outing Club To Hear U. S. Olympic Skier

Alex Bright Will Speak On His
Experiences In Germany

Alex Bright, a member of the 1936 Olympic Ski Team, will speak at a meeting of the M. I. T. Outing Club at 5 o'clock today in room 6-120. He will give a varied talk on winter sports and on highlights of his experiences with the United States Olympic Team in Germany this year.

At its last meeting the Outing Club elected Norman B. Robbins, '37, manager of the ski team. Fifteen men with previous experience have already come out for the team. All interested in this sport will have a chance to sign up after the meeting.

Voo Doo Loses Face As Fake The Tech Results In Fiasco

T. C. A. Charters Airplanes
For Technology Vacationers

A 21 passenger Douglas Flagship of the American Airlines, piloted by a Technology man and featuring "the most attractive stewardess of the line" has been chartered by the T. C. A. to fly Technology students to New York on the afternoon of December 22. After circling the Institute, the plane will head directly to New York, making Newark Airport in less than an hour and a half.

There will also be a Stinson Trimotor plane flying to Hartford and New Haven. This, too, will first circle the Institute. Those interested in making reservations may secure information in the T. C. A. office between 12:40 and 1:00 P. M. and between 4:00 and 5:00 P. M.

Live Duck Prize For Harvest Hop

Orchestra Will Conduct A Poll
To Determine The Most
Popular Song

Ghosts of Joe Penner will haunt the 5:15 Club's Harvest Hop that is being held tomorrow night, Thanksgiving Eve, in the Main Hall of Walker. John M. Gallagher, head of the dance committee, announced today that a live duck would be given away as a prize during the dance.

Ken Reeve's Orchestra is to play at the Hop. The orchestra will conduct a poll, in conjunction with the Lucky Strike Hit Parade, to determine the most popular song of the evening. Another feature will be an elimination dance after which the last two couples who remain on the floor will perform a specialty dance.

As announced in previous issues of The Tech, attendance at the Hop is free to 5:15 Club members who bring their membership cards with them.

Wellesley And Tech Hold Annual Concert

Tech Glee Club, Wellesley Choir
Combine For Third Time

The third annual joint concert of the Wellesley Choir and the M. I. T. Glee Club will be held Sunday, November 29, at 3:15 P. M. in the Main Hall of Walker Memorial. There will be no admission charge. The affair was so popular the last two times held, that the Musical Clubs have decided to make it an annual event. The Wellesley Choir, composed of about eighty Wellesley girls, is under the direction of Edward B. Green. The M. I. T. Glee Club, led by Edward C. Peterson, '37, is coached by William E. Weston.

Among the selections sung will be:

- | | |
|---|-------------|
| Hallelujah Amen | Handel |
| Upon My Left My Sovereign Sits | Peerson |
| A Festival Chime | Old English |
| M. I. T. Glee Club | |
| Songs My Mother Taught Me | |
| Adoramus Te | Palestrina |
| Fain Would I Change That Note | Williams |
| Lester M. White, Jr., '38, will render the following piano solos: | |
| Prelude in E Major | |
| Profile (Fr. Ch.) | Godowsky |
| Silhouette (Fr. L.) | Godowsky |

Peters and Stein Quit As Staff Refuses To Write

Hoax Scheduled For Today
Results In A Total Loss

Issue Paralleled in 1935 Stunt;
Lack Of Enthusiasm
Kills Effort

Attempts by Voo Doo to publish a hoax issue of The Tech failed to materialize last night, for lack of copy, according to evidence discovered early this morning.

The stunt started, but lack of a staff killed the efforts. Philip H. Peters, '37, general manager of Voo Doo, when asked if he had anything to say, exclaimed, "Why of course not". Peters was at home while Francis S. Stein, '38, editor, made a futile attempt to write the issue.

Shortly after midnight, a Tech Reporter saw the fake at the job printer, dated November 24. The featured story was "Poster Hoax Bared", an imaginary revelation of some illegal posters.

Makeup sheets indicated that the is-

Boat Club Will Sell Yacht Party Tickets In Main Lobby Today

Leon Mayers Furnishes Music,
Nautical Accessories
As Background

Tickets for the Annual Yacht Party of the Tech Boat Club, will be on sale in the Main Lobby starting today. The price is \$1.75 per couple. Tickets may also be obtained from members of the Club.

The dance will be held in Walker Memorial on the evening of December 4, from nine to two. Leon Mayers and his orchestra will provide music. This band has been well received at Wellesley, Harvard, Dartmouth, and other New England colleges.

As has been the custom for the past few years, the Yacht Party will be a formal cabaret dance, and table reservations should be made as soon as possible. The tables are to be arranged along the sides of the hall, leaving the center of the floor free for dancing. The decorations for the dance will promote a nautical atmosphere. For this purpose signal flags, oars, an eight oared shell, a single scull, and various pieces of marine equipment will be used.

Commodore J. Robert Ferguson, '37, is chairman of the dance committee. Wayne M. Pierce, Jr., '37, is in charge of the tickets and publicity, and Norman Birch, '37, is in charge of decorations.

Tau Beta Pi To Hear Professor Moreland

Tau Beta Pi, honorary engineering fraternity, is holding a luncheon meeting in the Silver Room in Walker today at noon. As guest speaker, Professor Edward L. Moreland of the Electrical Engineering Department will talk on "Personal Experience in the Field of Public Utilities". Professor Moreland is also connected with the firm of Moreland and Jackson, Consulting Engineers.

NOT DEAD

TECH SHOW

FOR an organization supposedly dead and carefully buried, Tech Show has been surprisingly active recently. So active, in fact, that it definitely appears that last year's Institute Committee's action in attempting to end an old tradition was more than a little premature.

The Show has an active membership nucleus, it has at least two scripts well on the way to completion, it has a long and famous tradition, and best of all, it has a successful year behind it after several years of financial if not artistic failure.

Student support for the activity is not lacking, as far as it is possible to determine. A recent "The Tech Inquires" column indicated that the student body wants the Show again; next Monday's poll should decide that point. But unless the poll runs counter to all indications, it will show that the school favors Tech Show.

It is hard to justify the Institute Committee action of last year. The show was finally on the up-grade, after several years of decline. It was playing in a regular theater again, instead of in a makeshift "Walker theater." It even revived the road trips of its hey-day, and this year there was reason to expect even better results.

Instead, the show has to labor under the handicap of non-recognition—in this case amounting to disapproval. It is a credit to the management that it continues in the face of difficulties. If next week's vote shows reasonable support for Tech Show, the Institute Committee should recognize the activity again. And every student who wants to see Tech Show again this year should come out and vote Monday.

EXCHANGE DINNERS

I. F. C. STARTS INNOVATION

MACHINERY has been set in motion by the Interfraternity Conference to facilitate exchange dinners between the various fraternities on the campus. Briefly, each house would, on some appointed date, send their freshman class to another fraternity and receive as guests, in turn, that fraternity's Sophomores. The following week this would be reversed. On future occasions exchanges would be made with other fraternities.

The advantages of such a move are many. All too often we hear as a criticism of the fraternity system that it restricts one who joins a fraternity to a small group of acquaintances. After this plan has functioned for a few years each fraternity man would have been given an opportunity to meet rather intimately the entire fraternity group, number-

ing about one-third of the undergraduates. Certainly this is no step towards restriction of acquaintances. Then, too, rushing season does not tend to generate good feeling between houses in many cases. Increased understanding would come from broader acquaintanceship.

INCOMPLETE

NEW POSTER RULES

VERY encouraging to all of us should be the realization by the Walker Memorial Committee that there exists a dilemma in the present situation of the poster rules at the Institute. They have done well to consider it necessary to revise the existing constitution in this respect.

At the last meeting of the Institute Committee the proposed changes and revisions were read. As the Chairman of the Walker Memorial Committee explained, the present rules in regard to posters have long since become obsolete. The brevity of the revised edition of that section is intended to add clarity to the whole and make explicit the exact intent of the rules and powers of their enforcement.

It is very desirable that brevity be realized, at least as long as completeness and thoroughness be maintained at the same time. However, it seems that in this case brevity has been carried a little bit too far. The new edition of the poster rules, will undoubtedly come up for approval at the next meeting of the Institute Committee, omit several items which seem necessary for the more effective execution of order in respect to bulletin boards in the future. For instance the part of the constitution which provided for the enforcement of the poster rules by the Walker Memorial Committee, has been struck out and no other revised ruling has been suggested to take its place. Again, although it may be implied in the rule about "recognized groups", there is no specific mention of the prohibition of the use of the bulletin boards by outside commercial organizations.

The basic idea underlying the suggested revisions is sound. If a few additions could be made to these revisions, the whole could become much more unified and complete as a result.

MAXIMUM EFFICIENCY

DORMITORY PARKING SPACE

DRIVERS of automobiles will welcome the extension which is being made to the dormitory parking area. Those of us who have begun to collect Cambridge and M.D.C. parking violation tags will feel relieved if this is a case of locking the door after the horse has been stolen.

As it was, it was next to impossible to move a car during the day if it had previously parked during the morning. As soon as the lines of cars up the center of space was formed, the cars at right angles to the curb could not possibly be moved.

It would be well for everyone to heed the notice issued by the Dormitory Committee in regard to parking at a 45 degree angle to the curb in order that three rows of cars may be comfortably accommodated in the new extended space. Unless everyone co-operates in this, the situation will be little improved over the past and it will be necessary to park on the corner of the athletic field, along the drive next to the dormitories, and on odd corners of the lawn and sidewalk. On the other hand, if an effort is made to park so as to realize the maximum efficiency of the space provided, there will be room enough for all and the necessary leeway to allow the removal of any car at any time.

It Has Been Said

Government

The essence of a free government consists in an effectual control of rivalries.—John Adams

Obedience is what makes government, and not the names by which it is called.—Edmund Burke

Realms are households which the great must guide.—Dryden

The whole of government consists in the art of being honest.—Thomas Jefferson

Reviews and Previews

Ballerina

Tamara Toumanova who appears this week with the Ballet Russe at the Opera House.

OPERA HOUSE:—Col. W. de Basil's Ballet Russe de Monte Carlo opens tonight for a five day engagement at the Opera House to present during its stay, fifteen productions and five ballets which will include "L'Après Midi d'un Faune". David Lichine is the Faun whose first appearance in New York twenty years ago resulted in an impromptu Apres Midi d'un Faune Dans un Court de Police. However, the Liberty of the Art has since been appreciated and the Faun capers free of Convention and Consistency.

Among the dancers this year are Leonide Massine, David Lichine, Yurek Shabalevsky, Tamara Toumanova, Lubov Rostova, Lubov Tchernicheva, and Alexandra Danilova. Massine's "Symphonie Fantastique" will be among the new works presented.

SHUBERT:—Featuring Frances Williams of Life Begins at 8:40 fame, the Duncan Sisters in their first full length parts since Topsy and Eva, and Imogene Coca and Charles Kemper as the comedians as well as the latest addition to the cast, Eddie Carr of Thumbs Up and Strike Me Pink, New Faces opens at the Shubert after a seven-month run at the Vanderbilt Theatre in New York. Advances promise that the revue will retain the same sharp-edged satire which caused Mayor Wilson of Philadelphia to publicly find fault with the humor.

Blossom Time with the harmonies and songs of Franz Schubert will open at the Shubert on Monday Dec. 7, with costuming, cast, and atmosphere authentic and gracious.

OPERA HOUSE:—Beginning Nov. 30, Walter Huston in Robert Edward Jones' production of Othello by William Shakespeare will supplant the Ballet Russe. More about this later.

CENTRAL SQUARE THEATRE:—Ramona and The Big Game share the bill at the Scollay. Of special interest to Tech men is the information that the usual Kiddie Show will be presented at the Saturday matinee and many novelties will be given away to the younger patrons of the theatre.

Rifle Team Opens Season In Victory

Captain Whitaker High Scorer In Match With Y. D.; Score 901-872

In their first shoulder to shoulder match of the season held last Friday at the Institute's rifle range, the Technology rifle team easily defeated the sharpshooters of the Yankee Division of the American Legion by a score of 901 to 872.

This victory was not surprising for practically all of the same men who defeated the Y. D. last year fired in the meet Friday. Those who are connected with the team are confident that with almost all of last year's team back this season the squad will have a good season.

High scorer for the Engineer sharpshooters was Captain David S. Whitaker, '37, who fired a total of 183. Other rifle men on the Technology squad who placed in the meet are James T. Clough, '38, manager; Gordon L. Foote, '38; Charles Maak, '38; and John L. Ohlson, '39. All of these men have already earned their letter on the rifle team.

Touch Football Final Won By Phi Mu Delta

Take Graduates After Beating Delta Kappa Epsilon

Beating Delta Kappa Epsilon and then defeating the team from the Graduate Dorms in quick succession Sunday morning, the Phi Mu Delta fraternity won the M. I. T. touch football tournament which has been going on for the past few weeks.

In the last game of the quarter-final round which was played off Saturday afternoon, Delta Kappa Epsilon won from Kappa Sigma by the score of 13 to 0. The semi-final game between Phi Mu Delta and Delta Kappa Epsilon was a hard, close game, with teams being evenly matched, and it was not until the final period that Phi Mu Delta scored the only touchdown of the game to win 6 to 0.

The Graduate Dorm team reached the final round by means of a default by the Commuters' team. At the time scheduled for the game only four commuters were present so the game was forfeited to the Graduates.

The final game was played immediately after Phi Mu Delta's victory over Delta Kappa Epsilon and again the Phi Mu Deltas showed good strength and spirit coming from behind, after the Graduate team had scored early in the game, to win 13 to 0.

Levis Aids Foilsman In Practice Session

With the coaching ability of John Roth to prepare them, the varsity fencers, under the leadership of Captain Leo Dantona, are looking forward to their most successful season. Although weakened by the loss of two of their best men by graduation, and by the failure of several squad men to report regularly, the team hopes to place well up among the leading teams in the Intercollegiate matches.

Joe Levis, '27, captain of the 1936 United States Olympic fencing team, has promised to appear at practice and aid Coach Roth in the instruction of the foils team. With the aid of such capable coaching, the team is confident of a great percentage of victories during the forthcoming season.

Teams on the schedule include Colombia and C. C. N. Y., two of the strongest collegiate teams in all three weapons, but most of the varsity men feel optimistic in the face of such a stiff schedule.

Sports Notice

Hours for freshman rifle practice have been announced as follows: Monday from 9-12, Wed. from 1-3, Fri. from 9-10, and Thurs. from 1-5. Sergeant Fitzgerald will be at the range during these hours to coach beginners.

SPORTS COMMENT

The rifle team looked impressive in its win last Friday. With all the lettermen back it looks like one great season for the shooters. The match scheduled for this Friday with the Arlington Rifle Club has been postponed until the week of Nov. 30.

It's like old times to see Joe Levis working out with the fencing team. We have heard reports that Captain Dantona has taken Joe over in three of their practice sessions recently. We hope that it is true because anybody than can take Joe over, even in practice sessions, has to be good.

Signs in the 5:15 Club announce the Club's bowling tournament. We hope that this goes over better than their part in the touch football tournament. That touch football tournament was quite a brawl by the way. The only thing that any two teams could agree on was that the officiating was not so good.

Oscar Hedlund reports that the Combined Musical Clubs are missing a good bet in the six men that he took to the I. C. 4A meet in New York. Oscar says that they amazed him by their talent on the piano.

Oscar is starting a Red Hand society here. It seems that cold weather forced the tracksters out to the board track yesterday and to keep his charges hands from freezing, Oscar doled out red gloves left over from Field Day. When the runners finally stomped indoors they pulled off their gloves and the color of their hands seemed to be identical with those of the original American.

Our thought for the week: This is an appeal to the soccer team.—We saw that soccer game with the cadets last Saturday and our impression was that the Beavers lacked teamwork. Wondering why this should be so we inquired of Coach Goldie. He told us that the soccer team had not practiced together for the entire week preceding that particular game. We just want to remind you fellows that the athletic reputation of the Institute rests with you. It is up to you that the schools earn, if not a great reputation, then at least not a derogatory one. How about getting out and practicing together for the rest of the week; then go down to New Haven and twist the Bulldog's tail.

'37 And '40 Victors In Annual Dual Meet

The freshman class was victorious again Saturday in another annual dual meet. This time, though, it was aided by the Senior class. They rolled up a total score of 39 points to the 33 points amassed by the combined Sophomore and Junior classes.

Nestor Sabi, '37, was the individual point winner with 17 points, gained by two firsts, two seconds, and one third.

The summary:
120 yard hurdles:—Won by Sabi, '37; second Klitgord, '39; third, Speller, '39. Time: 15m 4s.
100 yard dash:—Won by Klitgord, '39; second, Sabi, '37; third, Oettinger, '39. Time: 10m 5s.
Three-quarter mile run:—Won by Wirth, '40; second, Eddy, '38; third, Gunaris, '40. Time: 3m 29s.
600 yard run:—Won by Guerke, '37; second, Gunaris, '40; third, Wirth, '40.
Broad jump:—Won by Kites, '38; second, Hadley, '38; third, Sabi, '37. Distance: 21 ft. 1-2 in.
Javelin:—Won by Kites, '38; second, Sabi, '37; third, Richard, '40. Distance: 132 ft.
Shotput:—Won by Ferreira, '29; second, Kites, '38; third, Hadley, '38. Distance: 39 ft.
High jump:—Won by Sabi, '37; second, Hadley, '38; third, Breyer, '38. Height: 5ft. 7 1-2 inches.

Swimming Meet Date Announced As Dec. 4

Announcement was made last night by J. Jarosh, swimming coach, of an M. I. T. Intramural swimming meet to be held on Thursday, Dec. 3 at 5 P. M. All Technology students are eligible for this contest, which will include 50, 100, and 220 yard free style races, a 100 yard backstroke and a 100 yard breaststroke swim and diving events. There will be also, a 200 yard relay race, each of the four man team swimming 50 yards.

Trials will be held on the day before the meet. Those interested in entering this meet should communicate with either Coach Jarosh or the swimming manager before Monday, Nov. 30.

Sports Notices

Eugene S. West, '40, was elected captain of the freshman soccer team, the M. I. T. A. A. announced yesterday. West played on his high school team for two years and also managed it for that time. He is now out for the boxing team.

It was also announced that the men who won first places in the annual interclass meet, held Saturday, Nov. 14, would be awarded the A. T. A. A complete list of these winners was printed in a past issue of The Tech.

Varsity Booters Defeated By Army

Gillis Scores Only Tech Goal; Squad Plays Yale, Sat. In Final Game

Definitely outplayed by the undefeated Army booters, the Varsity soccer squad lost its last home game of the season, 4-1, Saturday. James Gillis, '38, made Tech's only point.

Army took the first offensive when, after several minutes of even play, Fred Clough of the West Pointers broke through the Beaver defense twice in rapid succession to score two goals. In the second quarter, Clough scored again, with M. I. T. pointless and mainly on the defensive.

In the third period Tech took the offensive, but all attacks were broken up short of the goal, and the quarter passed with neither side scoring. In the final period, Major made the Army's fourth goal, and Gillis scored Tech's only point on a penalty kick.

The team is expecting a fast and close game this Saturday, when they go to New Haven to meet Yale. Although Tech has only won one game with Yale in the past ten years, Coach Goldie hopes to break the steady streak of bad luck that has been following his team this season and score one victory over Eli in this decade.

T. C. A. Drive

The T. C. A. Drive returns are now only \$37 short of the budget requirements. With returns still being received through the mail, \$3317 has now been contributed.

MORE for your MONEY!

Thrifty New Englanders are shifting to the trains. Why? Because the Boston and Maine is giving them the biggest bargains they ever got. Fares are reduced everywhere—every dollar's worth of travel in B and M coaches now costs only 55¢. But you get more for your money in other ways. All through trains are air conditioned (draftless and dustless). Schedules are faster—you get speed without driving fatigue. No Stop and Go lights hold you up—no traffic jams wear you down. Train travel is the safest way to travel, too. So—follow the wise buyers. Get more for your money. Shift to the trains.

Boeing Scholarships (Continued from Page 1)

ate students in good standing and in regular attendance in some University, College, or Junior College in the United States or Canada, which offers at least two years of work leading to a Bachelor's Degree in Arts or Sciences.

2. They must be of the white race, between the ages of 18 and 25, of average height and normal weight, have normal eyesight, and be free of any physical handicaps.

3. They must submit a technical or non-technical treatise of not over 3500 words on any aeronautical subject of their own choice.

Winner to Receive Flying Course

The winner of the first award will receive a complete Boeing Airline Pilot Flying Course, including 250 hours of flight instruction, far exceeding the requirements necessary for a Trans-

port Flying License. This course covers the latest scientific developments in flying, including blind and instrument flying. Also included in the first award is a choice of the Air Transport Engineering Course, the Practical Aeronautical Engineering Course, or any semi-technical course offered at the Boeing School.

Winners of the second, third, and fourth awards may choose one of a number of technical and semi-technical courses and will, in addition, receive 25 hours of dual and solo flight instruction. Two alternate candidates will be chosen for possible awards in the event that winners are unable to

Dramashop Play Is Financial Success

Myron A. Cantor, '39, treasurer of the Ghost Train production, stated that although the ticket returns have not yet been completed, Dramashop's presentation of Arnold Ridley's "Ghost Train" was definitely a financial success. About two hundred and fifty people saw the production, around one hundred of those attending on Friday evening.

This production was the first of two public presentations offered by Dramashop, the Technology undergraduate dramatic organization, during the school year.

qualify physically. All courses will be given at the Boeing School of Aeronautics, Oakland, California, a division of the United Airline Transport Corporation.

Former winners from Institute In former competition students from the following universities and colleges have been awarded scholarships: Antioch College, Bethany College, California Institute of Technology, Clarkson Memorial College, Massachusetts Institute of Technology, Mount Union College, Oregon State College, Santa Barbara State Teacher's College, Stanford University, University of California, University of Maine, University of Michigan, University of Minnesota, University of Nebraska, University of Oklahoma, University of Washington, University of Wisconsin. A circular giving detailed information on the contest may be obtained by writing to the Registrar, Boeing School of Aeronautics, Oakland, California.

Noted Chemist Speaks Before Faculty Club

Prof Bartow Tells Of Marvels Of Modern Chemistry

Professor Edward Bartow, president of the American Chemical Society and head of the Department of Chemistry and Chemical Engineering of the University of Iowa, spoke last Friday in North Hall, Walker Memorial at the luncheon meeting of the Faculty Club. His subject was "Silk Purposes from Sow's Ears."

Professor Bartow has had an unusually successful career as teacher and engineer. In addition to being an outstanding chemist he is widely known in the fields of sanitation and public water supply.

The Faculty Club was organized in 1919 for the promotion of good fellowship among its members and for the consideration of any subject of common interest. The club provides the newspapers and periodicals in the faculty and alumni room of Walker Memorial.

Chess

for a simultaneous match if the financing of the affair could be arranged.

The most serious difficulty facing the club, beyond the mechanical details of organizing it, is the finding of a suitable room for playing. In

Hexathon Next Saturday; Contestants Enter Six Events

A hexathon will take place Saturday, Nov. 28, on Tech Field. Coach Oscar Hedlund announced today. There will be no entrance requirements.

The hexathon, which is an abbreviated form of the decathlon, consists of six events—the high jump, the broad jump, 12 lb. shot put, 60 yard dash, 300, and 600 yard run. Each contestant must compete in all six events, and the person with the highest total score will be the winner.

this connection it was pointed out from the floor that the atmosphere of the 5:15 Room was not always conducive to good chess playing, and that it might be possible to use Walker's East Lounge.
